

# ANCESTOR VENERATION

Today and everyday, pass it on.  
Living from hearts of love, we will find ourselves  
passing on the spirit of Buddha that is passing through us.  
We are not really giving others a life.  
We are giving them the love they need to find their own life.  
We give because we share this Spirit.

Indicate a positive trait or value that you learned from each person. What was special about each one?
